### · Memorandum

TO	:	Chief, Contact Division	DATE:	1 July 1963	
lttn	:	/Lincoln Staff			
FROM	:	Chief, Office			
BUBJEC	T:	Attempted R.I.S. Penetration of Bell Tele	ephone L	sbø -	
•	:	Ref: Reports 2988-3 and 2989-3			ı

- 1. We thought the attached reports would be of interest to Lincoln Staff from a Soviet realities standpoint. We also felt that they should be brought to the attention of Division management because the M.O. outlined therein is becoming a major factor in dealing with sources who have contact with Sovbloc nationals. It has been our experience that the type of activity outlined has been on a marked increase, particularly since the establishment of the KOB 10th Directorate. Although such activity by Sov legals is taking place throughout the continental U.S., undoubtedly its greatest impact is being felt in the areas because of the large Soviet Government establishments in both of these cities. For this reason it would seem imperative that both and be extremely vigilant for such activity in companies and institutions with which they are dealing in order that it may be recognized in its earliest stages and appropriate CI/CE countermeasures instituted. In order to assist other offices in this respect, we plan to write in the mear future an article for the Division Newsletter, outlining some of our experiences along these lines.
- 2. We were somewhat disappointed in CI Staff's reaction to our recent request for assistance in defensive briefing of the subject of one of the attached reports. It seems to be quite clear now that our original assumption concerning his being R.I.S. targeted was quite correct and that there is a strong likelihood that his current trip behind the Curtain will be utilized by the opposition for provocation and/or an actual recruitment attempt. We wonder in future cases of this nature exactly what support we may expect from Angleton's shop. Although we feel that we have a fair capability for handling such matters here in we do admit that, at least on this one, we would have felt slightly more comfortable had a CI specialist been along, if for no other reason than to preclude any possible Monday morning quarterbacking by the "old pros."

Subject: Attempted R.I.S. Penetration of Bell Telephone Labs

3. Judging by the attached material, it would appear that, despite established Bell policy (see our 16 May memorandum re Case 39,790), the opposition has seen fit to deflower at least two of Bell's scientific virgins. We seriously wonder at this point just how many other Bell people might be in the same boat. Perhaps, as a result of all this, some representation by Bell management to the KGB will be forthcoming, spelling out to that organization, as was spelled out to our own, established company policy pertaining to such matters. In any event, it would appear that at least one or two Bell scientists, and there are probably more, have been giving the R.I.S. more cooperation and reporting than the Agency. Let's hope that in the near future Bell management takes some effective steps to rectify this rather ludicrous, and patently dangerous, situation.

or more contacts with Volgin whiten insted will list ago when received a note from Volgin stating that he and his taking were returned ing to the USSE in order that his wale could enter, medical bountager there. Incidentally,
5. said that meet, if not all, of Volgin's phone enals to him were to his bome and usually appeared to have been add from pay phones. said that his meetings with Volgin included lunches and dinners in Manhattan, cocialiting at a head of all I.R.E. Meeting, theater, and entertainment of each other in their respective homes. sladas that his wife accompanied him luring most of his contact with Volgin. Other than to his was family, Volgin never introduced to any other incividuals.
unclassificated interest to Vo.gla, who stained to be an objecte to engineer.  can't recall whether Volgin specifically requested the information or whether he turned it over to him on his own initiative At one point during their relationship, Volgin asked to write an article on US acoustics work for publication in a Soviet technical journal.  declined.
about his relationship with Volgin and expressed some concern that sell security hadn't been more active in adminishing him equinst development of relationships with Low Government representatives. His view of his experiences now completely coincides with ours as a result of our discussion.
9. Another factor which obviously enters into R.I.S. picture is his wife's Eulgarian extraction.  neither he nor, to the best of his knowledge, his wife have ever been approached by Sovblor representatives in this country concerning his wife's family in Bulgaria. His wife's mother, lympalia Hensekik, immigrated to the US in April 1960 and lived with and his wife until November 1962 when she returned to Defia, apparently because the was homesick and couldn't adjust to the new language and life in the US.  said that his mother-in-law's original exit visu request was rejected in 1958 by the Bulgarian devernment, but after he and his wife wrote several letters to the Bulgarian Foreign Ministry she was finally granted permission to leave in 1960.

SECRE I SENSITIVE

Subject: Apparent RIS Interest in Bell Telephone Labs
10. After visits the USSR on his current trip, he
plans to fly to Sofia to spend approximately a week with his wife's
family there. had not mentioned the Bulgarian visit in
outlining his original itinerary to of this office, there-
fore, it was not mentioned in   Coordination Outline.
11. All of the above would seem to indicate quite strongly that
, as we originally surmised, has been targeted by R.I.S. In
briefing we ran through some of the typical entrapment
situations fabricated by the opposition, e.g., women, homosexuals,
purchase of drugs for Sov citizens, black market activity, acceptance
of letters to mail outside the USSR, commitments to disaffected Sovs,
etc. In addition, we stringently admonishedagainst any
notetaking or photography which could in any way be construed as com-
promising. We also alerted to the fact that some attempt
might be made to use his life's family as leverage in a recruitment
attempt. In this connection, we pointed out to that there
was a strong likelihood that the R.I.S. and/or Bulgarian service would
make an approach to him during his forthcoming visit to Sofia. An
approach in Bulgaria would give the Sove an opportunity for disavowal
and also would provide the proper setting for maximum utilization of
relatives. When mentioned that his sister-in-law, FNU
had indicated several times in the past that she would like
to leave Bulgaria, we strongly admonished him against making any com-
mitments to her, pointing out that she may possibly be co-opted by
the opposition. We told that any representations to gain
an exit visa for his sister-in-law should be channeled through the
US Legation in Sofia. was told that, if any pressure were
applied concerning his wife's family, his best reaction would probably
be a noncommittal, "I'll think it over when I get home:" All in all,
we alerted as best we could to the opposition M.O. and pre-
pared him on how best to avoid some of the not so obvious pitfalls which might be in store for him.
WALLUM MAGAY OF AM BUVLU AVS MAME
12. Prior to our briefing of alerted Bell
management to all of the ramifications of travel behind
the Curtain. The management was informed by that we felt it
our obligation to point out to them the strong possibility that
had been targeted in order that they would have all of the facts avail-
able before signing off on his trip.

Society Meeting, 5-14 May, Moscow (see 8878 for Coordination Out-
Society Meeting, 5-14 May, Moscow (see 8878 for Coordination Out- line); subject mentioned having had recent contact with a Soviet Govern- ment representative in this country. The Soviet in question identified himself to as Gleb Aleks? Pavlov and gave his address as 1216
ment representative in this country. The Soviet in question identified
First Avenue, Manhattah.
2. According to his initial contact with Pavlov took
place in late March following the International Convention and Show
of the I.B.E.E., 25-29 March, New York City (see Case 39843). At the
convention became friendly with two Soviet counterparts in
attendance, A. V. Tiel and Anatole Trutka, both of whom invited
to his home for a social visit during their US stay. When the Sovs
departed for home following the convention, saw them off at New
York International Airport. It was at the airport that he first met
Pavlov, who apparently was seeing off all of the Sov I.E.E. delegates.
After the Sov delegation had departed, and Pavlov returned to
Manhattan together and, on parting, exchanged addresses.
3. A couple of weeks after their initial meeting, Pavlov tele-
phoned at his home and told him that Tiel and Trutka had asked
him to send their warmest regards to and thank him for the
hospitality which he showed them during their trip to this country.
During the conversation, Pavlov expressed an interest in renewing his
acquaintance with and suggested that he would enjoy visiting
him at his home in Madison, New Jersey said that he would
enjoy seeing Pavlov, but that he was currently preparing to leave on
a trip to the USSR and Europe and was not scheduled to return to the
UB until late May suggested that, in view of this, perhaps early June would be a good time for them to plan on getting together.
Paylow replied that he, himself would be in the USSR then, but would
contact when he returned in early July. Incidentally, Pavlov's
* copy a tracked

	phone call to vas made on a pay phone. In fact, when the operator cut in for overtime, called Pavlov back at the pay phone.
~	mentioned that he possibly might have the phone number writted
	4. Soom after the phone call from Pavlov, called John
	McVicker of the State Department and inquired if any clearance of
	Pavlov's proposed trip to his home in Madison would be necessary.
	McVicker told that any such clearances were Pavlov's worry
	and that he need not be concerned about same.
	9. During his recent trip to the USSR, it would appear that
	was exposed to two incidents which possibly could have been
	of opposition fabrication. One involved an approach by a Soviet
	interpreter by the name of FNU Petrov, who took aside and
	asked him if he could do him a personal favor by getting him a sub-
	scription to Mational Geographic Magazine for which he, Petrov, woul
	reimburse in rubles. politely refused.
	6. The other incident involved being photographed with
	Lan attractive young female interpreter, Ludmilla Oshkina. According
	to when one of the Soviets in their party was about to take
	a picture of him standing next to Ludmilia, another individual stand
	ing nearby was pushed out of the way apparently so that he would not
	be included in the photograph. In addition, Ludmilla attempted to
	strike an affectionate pose with for the photograph by slipping
	her arm through his claims to have pushed her arm away just
	as the photo was being snapped.
